

# Line 301 Asset Condition Refurbishment Project

## Notification

Dear Neighbor,

The New England Power Company (NEP) d/b/a National Grid's Line 301 Asset Condition Refurbishment (ACR) Project Team is reaching out to inform you that in the coming months, targeted gate work will occur along the Transmission Line Rights of Way. Crews will be installing, replacing and repairing select gates along the 301 Transmission Line ROW. The gate work is anticipated to begin the week of September 8<sup>th</sup>.

This work is part of an overall program designed to increase safety, security and restrict unauthorised access to the Transmission ROW.

NEP is committed to keeping residents, businesses, local officials, and community groups informed and engaged in this Project.

If you have any questions or would like additional information, please reach out to our toll-free Project number at (888)-367-5301, or email our outreach consultant, Todd Petrishki, at [todd.petrishki@wsp.com](mailto:todd.petrishki@wsp.com).

We appreciate your patience and cooperation throughout the duration of this project.

Sincerely,  
Joe Carroll
